M.Sc. in Data Science

| Birchwood University, Florida, USA (2025)

B.Sc. in Chemistry

| National University, Bangladesh (2013)

CAREER OBJECTIVE

A highly skilled and results-driven professional with over 10 years of hands-on experience in manufacturing and a strong foundation in data science. Combining deep expertise in production optimization, system configuration, and quality assurance with advanced proficiency in data analysis, machine learning, and business intelligence tools, including Tableau and MySQL. Currently holding a master's degree in data science, I am seeking to leverage my diverse skill set in a dynamic role that enables me to contribute to data-driven decision-making, process optimization, and business success across multiple industries. I am committed to continuous professional growth and delivering actionable insights that drive organizational performance, efficiency, and innovation.

CORE COMPETENCIES - MANUFACTURING & IT INTEGRATION

Manufacturing Processes | Production Optimization | Quality Assurance | 6S Methodology | OSHA Standards 6S | Lockout/TagOut | Clean Room Protocols | System Configuration | Robotic Tool Setup & Installation | Cable & Wiring Installation | Component Assembly | Sub-Assembly | Troubleshooting & Diagnostics | IOMS & MES Integration | Water Pipeline Testing | Electronics Inspection | Circuit Board Tray Installation | PCB Assembly & Testing | Mainframe Operations | Semiconductor Tools Setup & Maintenance | Production Work-flow Optimization | Lean Manufacturing | Assembly Line Balancing | Team Collaboration | Workforce Training & Development | Safety Protocols & Compliance | Time Management & Efficiency | Shipping & Packaging | Order Verification & Dispatch

DATA SCIENCE & ANALYSIS

Data Analysis: Data Cleaning, Data Mining, Exploratory Data Analysis (EDA)

Data Integration: Python-MySQL Integration, Data Extraction, SQL Queries

Data Visualization: Tableau (Interactive Dashboards, Storytelling, Data Reporting)

Programming: Python (Pandas, NumPy, Seaborn), MySQL, Scikit-learn, Flask (for ML deployment), GitHub, Jupyter Notebook

Machine Learning: Supervised & Unsupervised Learning, Regression Models, Predictive Analytics

Data Modeling & Validation: Time Series Analysis, Data Transformation, Integrity Management

Technical Tools: Microsoft Office Suite

Soft Skills: Problem-Solving, Critical Thinking, Effective Communication, Team Collaboration

CERTIFICATION & PROFESSIONAL DEVELOPMENT

Information Technology

Data Analyst Professional Certificate of Completion, Taskimpetus | Aug 2024

Software Testing and Automation Course, NextTech ITC, Irving, TX | Mar 2021

CompTIA IT Fundamentals, austinfree.net, Austin, Texas | Mar 2018

CompTIA A+ Complete Study Guide (Course & Labs), The Goodwill Academy | May 2018

Diploma in Computer Science & ICT, SIT Foundation, Bangladesh | Dec 2010

Manufacturing

Lock out/Tag out, Crane Hoist & lifting, Safety, IOMS for manufacturing, Electrical Safety, 6s and more.

Work Experience

Manufacturing Technician

Applied Materials, Austin, TX | Sep 2021- Present
Building 36 (ETCH Department) | 2024 - Present
Building 32 (Endura Department) | 2023 - 2024
Building 34 (CSMG Department) | 2021 - 2023

Semiconductor Industry Experience:

- Build systems/tools from scratch - including assembly, sub-assembly & cabling of components across the CSMG, ENDURA, and ETCH departments, following strict clean room protocols to ensure system cleanliness and environmental integrity.
- Inspect systems for compliance with operational requirements, ensuring readiness and tool performance across all the departments
- Install, route cables & wiring for UPS servers, Moxa, and robotic tools, ensuring proper alignment and connection for optimal system performance and stability in the CSMG fise build area.
- Assemble and cable Centris, AP, Falcon, Mainframe systems, ensuring the tools are properly set up to optimize semiconductor production processes in the Etch department.
- Install electrical cables, copper, steel pipelines, and poly lines building gas boxes and ensure system integrity and safety compliance in the Mainframe Endura LPG area.
- Assist with packing and shipping of tools after installation.
- Perform QA checks, ensuring optimal tool readiness for deployment.
- Follow work instructions through **IOMS** and procedures during tool setup.
- Collaborate with the team to meet and exceed quarterly production goals.
- Identify and resolve tool issues quickly to minimize downtime.
- Support engineers in resolving tool issues and improving system performance.
- Find and fix system problems to avoid production delays.
- Train new personnel, emphasizing safety protocols, and collaboration with the team to meet and exceed quarterly production targets.

Clean Room Technician

Luminex Corp, Austin, TX | Feb 2021 – June 2021

- Built and tested parts for COVID-19 testing kit assemblies, ensuring compliance with FDA medical device standards.
- Operated specialized equipment for the assembly, testing, and packaging of diagnostic kits.
- Assisted in the optimization of cleanroom processes to improve production efficiency while maintaining compliance with health standards.
- Supported troubleshooting and repairs of assembly machines to ensure minimal downtime and high production rates.
- Provided feedback on the manufacturing process, supporting investigations and process changes.
- Maintained cleanroom protocols to uphold the highest standards of hygiene and contamination control.
- Assisted in editing procedures and records for the build and test process, ensuring accuracy and alignment with regulatory requirements.

Customer Service

Super Mart, Austin, TX | Aug 2020 – Dec 2020

- Provided exceptional customer service to a diverse clientele, addressing inquiries and resolving issues in a timely manner.
- Processed sales transactions accurately and efficiently using the point-of-sale (POS) system.
- Assisted customers in locating products, offering suggestions based on preferences, and ensuring customer satisfaction.
- Supported inventory management by restocking shelves, organizing products, and maintaining store cleanliness.
- Promoted store loyalty programs, effectively increasing membership enrollment.

Assembler II

AirBorn Inc, Georgetown, TX | Feb 2019 – July 2020

- Conducted quality assurance for cable assemblies, with a focus on wire harness connectors for military and aerospace applications.
- Rotated through production tasks, including assembling, inspecting, and testing materials to meet specifications.
- Created marking files using ROFIN laser machines for precise and accurate labeling of components.
- Installed and connected cables and tubing per detailed specifications to ensure operational integrity.
- Generated inspection reports and non-conformance documentation to ensure customer requirements were met.
- Participated in team meetings to discuss production updates, troubleshoot issues, and collaborate on process improvements.
- Ensured compliance with safety protocols and industry standards to maintain high-quality product output.

Assembler

X Desk, Pflugerville, TX | Mar 2018 – Jun 2018

- Assembled computer desks, keyboards, and chairs, following established safety policies.
- Used RF scanners for order picking and shipping, maintaining organization and cleanliness in the workspace.
- Loaded and unloaded items while ensuring quality and accuracy in product handling.
- Assembled products based on customer specifications and design blueprints to meet product requirements.
- Conducted quality checks on assembled products, ensuring they met standards before shipment.

Production Operator

Build A Sign, Austin, TX | Jan 2017 – Feb 2018

- Managed the production and assembly of plastic and magnetic signs using specialized machinery, ensuring quality and efficiency.
- Verified orders, boxed products, and prepared shipments while following safety protocols.
- Worked across multiple departments (canvas, small flex, T-shirt) using various tools to enhance productivity and meet deadlines.
- Performed routine maintenance and troubleshooting to prevent delays and ensure work-flow.
- Operated large-scale machines, including the Zund cutter, to streamline sign production.
- Processed shipping information and ensured accurate packaging and dispatch of orders.
- Participated in the continuous improvement of assembly line processes to enhance overall efficiency and reduce downtime.

Customer Service Cashier

Big Daddy's, Johnson City, TX | Oct 2016 – Jan 2017

- Operated cash register and balanced transactions.
- Provided on-time, friendly customer service and greeted customers appropriately.
- Monitored checkout stations to ensure adequate cash availability.
- Supervised work activities of sales representatives and processed customer returns.
- Assisted customers with pumping gas or pumped gas for them when required.
- Maintained clean and orderly areas around gas pumps and the convenience store.
- Ordered and received stock, ensuring items were displayed on shelves.
- Labeled items with correct prices and managed price modifications.
- Took cash and credit card payments and returned change.
- Practiced suggestive selling to encourage additional purchases.
- Received fuel trucks and supervised refilling of fuel pumps

Customer Service Cashier

Valero Corner Store, Austin, TX | Jun 2016 – Oct 2016

- Operated cash register and balanced transactions.
- Provided friendly customer service and greeted customers appropriately.
- Counted money in cash drawers at the beginning of shifts to ensure adequate change.
- Supervised sales representatives and processed customer returns.
- Monitored checkout stations for adequate cash availability.
- Verified the age of customers purchasing alcohol or cigarettes.
- Assisted customers with pumping gas or pumped gas for them when required.
- Maintained clean and orderly checkout areas, including general cleaning duties.
- Ordered and received stock, ensuring items were displayed on shelves.
- Assisted with receipts, refunds, or change due to customers.
- Labeled items with correct prices and managed price modifications.
- Ensured the cleanliness of the gas pump and convenience store areas.
- Worked as a gas attendant when necessary.

Cashier

Randall's, Austin, TX | Apr 2016 – Sep 2016

- Greeted customers and verified the age of those purchasing alcohol or cigarettes.
- Gained experience with cash registers, credit card reader, desktop computers
- Processed receipts and bills for customers and developed positive customer relationships.
- Organized racks and shelves to maintain store appearance.
- Kept both departments clean, including sanitizing meat-cutting equipment.
- Set up the seafood case when the seafood manager was unavailable.
- Ensured the cleanliness of checkout areas, including general cleaning duties.
- Managed incoming shipments, inventory, and freshness before stocking.

Restaurant Crew Member

Wendy's, Austin, TX | Jan 2016 – Apr 2016

- Welcomed customers and provided menus, suggesting items based on preferences.
- Informed customers of special or new deals.
- Took orders and ensured accuracy by repeating them to customers.
- Processed payments and relayed orders to the kitchen.
- Prepared orders, including fountain drinks, shakes, and ice cream.
- Assembled and packed orders securely, adding condiments as needed.
- Managed food preparation at fry stations and grills.
- Maintained cleanliness of preparation counters and equipment.

Web Designer

Uding Inc., Barisal, Bangladesh | Feb 2009 – Nov 2015

- Designed and developed websites, working closely with clients to understand their needs and ensure satisfaction.
- Managed the full web development life cycle, including planning, designing, coding, and maintaining websites.
- Optimized websites for usability, performance, and SEO, ensuring maximum reach and engagement.
- Collaborated with graphic designers and content creators to produce visually appealing and functional websites.
- Implemented and maintained content management systems (CMS) to allow clients to easily update and manage their own content.
- Provided technical support and troubleshooting for website-related issues to clients.
- Developed custom features and functionality using HTML, CSS, JavaScript, and PHP to meet specific business needs.
